

ARENA, OUTDOOR, WALL MOUNT

DESCRIPTION

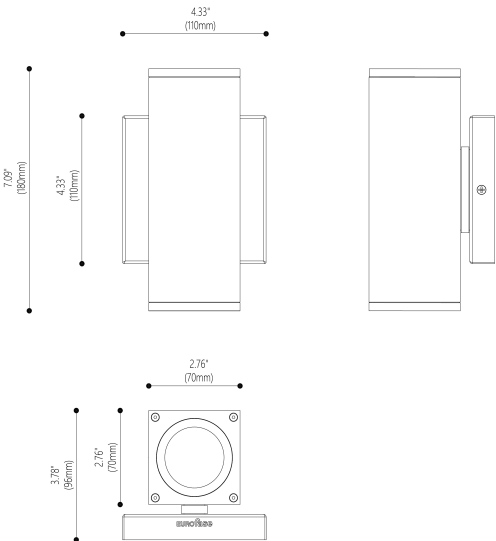

ARENA is the square counterpart to PLAZA, offering the same versatile outdoor performance in a crisp, angular form. Its structured cubic silhouette brings a modern geometric edge to any exterior surface, available as a wall mount or ceiling mount to fit a variety of architectural contexts. Whether directing light downward with focused intent or casting it both up and down to activate a wall plane, ARENA delivers bold, purposeful illumination. Available in two sizes — the ARENA 70 and the larger ARENA 100 — it is a fixture that pairs strong presence with dependable outdoor performance.

PRODUCT FEATURES

- Elegant, sculptural design
- Warm and inviting illumination
- Architectural enhancement with subtle depth
- Refined and effortless aesthetic

SPECIFICATIONS

MODEL	50729-012
