

B → A → C

1. Carefully unpack and identify all parts referring to the illustration for parts identification.
2. Turn power to the installation point **OFF**.
3. Referring to the installation instruction with the product for the wiring and installation.
4. Place the glass (B) onto socket of fixture body (A) and secure with socket ring (C).
5. Install proper bulbs (not provided) to each socket referring to the markings and / or labels on the fixture for maximum wattage.
6. Restore power to the installation point **ON**. Retain this sheet for future reference.

Important note:

Glass is hand blown. Each piece has a slight variance on thickness and weight. Do not mix the glass with those from other fixtures.
