

ELLIPSE

7610.39-MB

Sonneman

Inspired by the shape of organ pipes, the slender cylindrical shades of the Ellipse sconce extend vertically in a layered composition. As illumination radiates from each end of the three tubes, it creates soft beams that animate the wall with depth and shadow. The asymmetrical design introduces an organic twist to this symphony of light, while customizable left/right alignment allows for symmetry when installed as pairs. Finished in Modern Brass or Black Brass.
